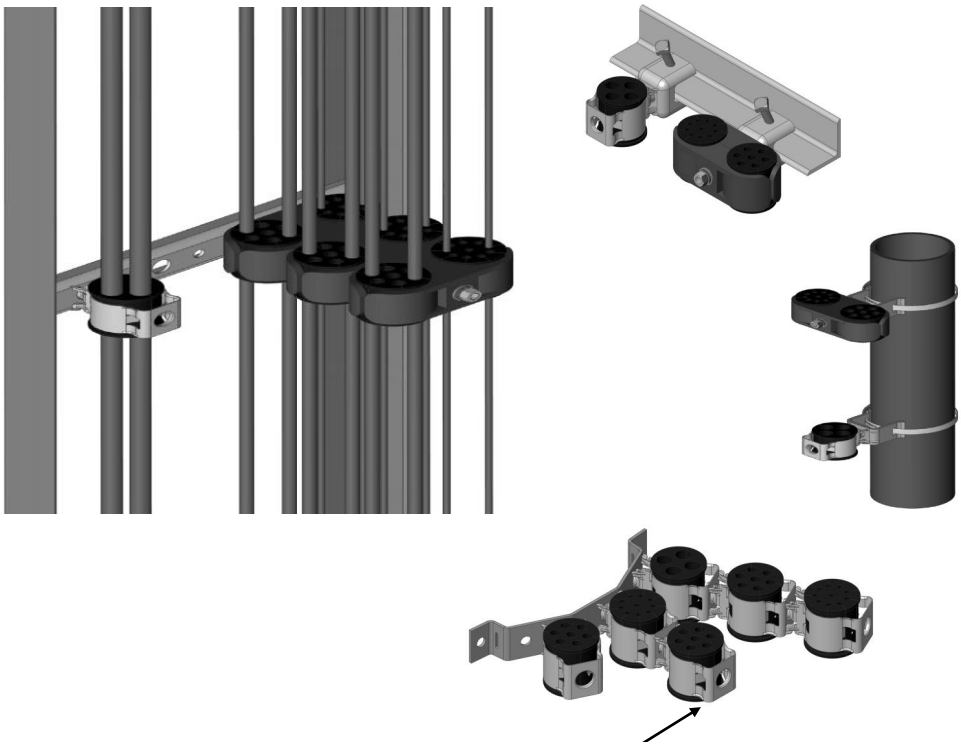
Product Reference Sheet

Barrel Cushions

Product Description

Barrel Cushions provide versatility in all applications reducing material and installation costs by having multiple holes in a single cushion with a single attachment point. The unique design allows them to be individually installed utilizing Butterfly Hangers or stacked out with Stackable Hangers and Mini Cable Blocks. Barrel Cushions are constructed from UV resistant EPDM rubber, which is durable in extreme temperatures and harsh environmental conditions. Barrel Cushions are available in multiple sizes to accommodate what the industry demands for installation of all of your Fiber, Power, Elliptical, and Coaxial Cable requirements.

Typical Applications



U.S. PAT. # 9,438,021 B2
