

Product Reference Sheet

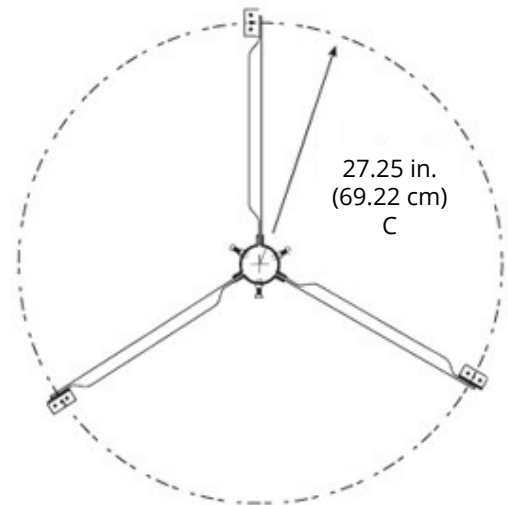

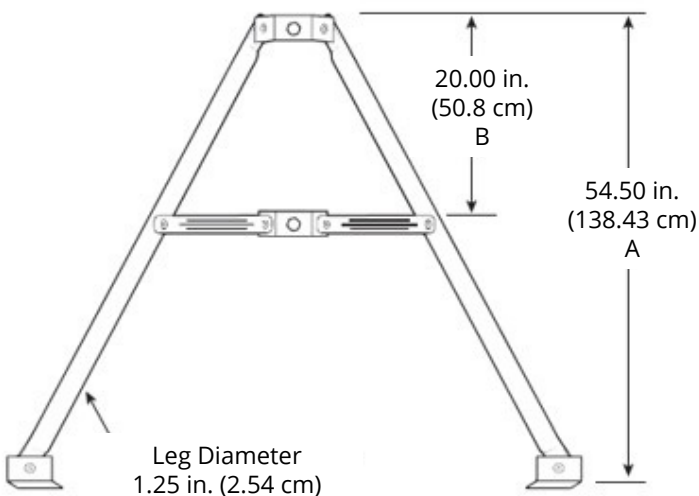

MAR-TAM36X - Tripods

Product Description

Tripods are made of steel with zinc finish for longevity and weather resistant properties. Tripods are widely used for mounting smaller dishes or off-air antennas. They are portable but can also be permanently bolted to various mounting surfaces including concrete by utilizing proper anchor bolts. Tripods can be mounted on roofs, decks or any other sturdy surfaces. Swivel feet design helps in accommodating pitched surfaces. They are designed to accept up to 2" mast pipe. It is foldable for ease of transportation if a portable antenna stand is needed for mobile applications.
