# Innerduct

Marathon innerduct, made with HDPE, is the ideal protective pathway for applications such as power utilities, telecommunications, fiber to the home (FTTH), broadband, plowing and horizontal directional drilling. HDPE conduit from Marathon is extremely durable, offering excellent resistance to impact across a wide range of temperatures, as well as the ability to protect against rock and root impingement.

## PRODUCT FEATURES

Manufactured with highest quality HDPE materials

- High density polyethylene compounds
- Classified to ASTM D3350
- Meets or exceeds cell class PE334480C or E
- No recycled or filler materials

Ideal protective pathway

- Flexible, durable and impact resistant
- Non-corrosive and resistant to chemicals
- Protects against rock and root impingement
- Ductile at low temperatures

Offered on reels

- Provides long, continuous reels
- Easy to transport and install
- Eliminates joints

Smoothwall Conduit Sizes				
Pipe Size	Avg OD	Standard Dimensional Ratio	11	13.5
1.25"	1.66"	Min wall	0.151"	0.123"
		Avg ID	1.340"	1.399"
		Weight	0.310 lbs./ft.	0.257 lbs./ft.
1.5"	1.9"	Min wall	0.173"	0.141"
		Avg ID	1.534"	1.601"
		Weight	0.406 lbs./ft.	0.337 lbs./ft.
2"	2.375"	Min wall	0.216"	0.176"
		Avg ID	1.917"	2.002"
		Weight	0.634 lbs./ft.	0.526 lbs./ft.
