Crossover Plates for Antenna Mounting Applications

Product Description

Crossover Plates are a versatile mounting solution which allows two pipes to be secured together at right angles. U-bolts are utilized to secure the pipes and are in each kit. MAR-XP2020 crossover plates will allow two 2-³⁄₈" (60.3mm) OD pipes to be secured together. MAR-XP203X crossover plates will allow a 2-³⁄₈" (60.3mm) OD and a 3½" (88.9mm) OD pipe to be secured together. MAR-XP2040X crossover plates will allow a 4-¹⁄₂" (114.3mm) OD and a 2-³⁄₈" (60.3mm) OD pipe to be secured together. Each kit includes one plate and four U-bolts. The hot-dip galvanized construction ensures long-term reliability and corrosion protection under environmental extremes.
